WORK EXPERIENCE

Frontend Developer

Self-Employed / Freelance

2020-2022

Developed various websites for different initiatives including a portfolio static sites for a design studio (Masterskaya), a SPA for an independent cinema video platform (Glazok.TV), and a static page for a research project (Strelka Institute for Media, Architecture, and Design). During the work, I managed full-circle communication between PO, editors, back-end developers, and designers which led to a fast first release.

Skills: Next.js · React.js · JavaScript · Webpack · Gulp · JSS · styled-components · SASS

Frontend Developer

Grabr Inc / grabr.io / Contract

2017-2020

- Maintained isomorphic high-load SPA on web and Android devices with 95% shared code, leading to simultaneous development and similar user experience on both platforms.
- Developed the company's Design System, including components architecture and UI visual library, which provided visual consistency and increased development speed.
- Created a custom company's help center based on Zendesk, which automated customer service experience.
- Supported clean code practices, documentation, and detailed peer code reviews that kept the development team working more efficiently and new members adapting faster.
- Wrote unit, mock-up, and automated tests that significantly decreased post-release bugs and overall maintainability.
- Translated client requirements into structured technical solutions due to close communication with marketing, design, and PO
